May 17, 2018

As part of the City Council meeting at 7PM on May 29th, 2018 the City council will receive input and discuss the future disposition of the northerly section of East Long Lake Road.

East Long Lake Road is in extremely poor condition. The northern section of the road runs along the eastern shore of Long Lake. Portions of the road way have been undermined and the pavement is crumbling. The roadway just south of the Spring Hill intersection is low lying and prone to seasonal flooding requiring periodic closures of the roadway. Due to the potential high cost to reconstruct the roadway combined with low usage, the City is considering options for the portion north of 550 East Long Lake Road and south of the intersection with Spring Hill Road. Options may include: reconstruction of the road, converting the road to gravel, converting it to a trail. Residents are encouraged to send written comments in advance of the meeting.
